EDUCATION

- **Master of Computer Applications (MCA)** | Durgapur Institute of Advanced Technology and Management | 2023–25 | CGPA: **7.47**
- **Bachelor of Computer Applications (BCA)** | Burdwan Institute of Management and Computer Science | 2020–23 | CGPA: **8.05**

TECHNICAL SKILLS

- **Programming Languages:** Java, PHP, JavaScript.
- **Frameworks:** Laravel, CodeIgniter.
- **Frontend:** HTML5, CSS3, Bootstrap, Tailwind CSS.
- **Database:** MySQL, SQL.
- **Concepts:** Object-Oriented Programming (OOP), MVC Architecture, REST APIs.
- **Tools & Technologies:** Git, GitHub, VS Code, XAMPP, Composer, Laravel Artisan, Notepad++, Postman.

PROFESSIONAL EXPERIENCE

- **Software Developer | Essgee Enterprise | Aug 2025 – Apr 2026**
 - Developed and maintained a full-scale CRM application using PHP with multi-role access, serving modules including Customer, Products, Accounts, AMC, Inventory, Projects, and Employee Management.
 - Implemented secure authentication, authorization, CRUD operations, server-side validation, advanced filtering, search, sorting, and pagination to enhance system functionality.
 - Optimized backend performance through MySQL indexing, query optimization, aggregation, joins, and AJAX-based asynchronous data loading.
 - Built reusable components and implemented CSV/Excel import-export functionality, improving workflow efficiency and application maintainability.
- **Software Developer Intern | WbElysium | Apr 2023 – Sept 2023**
 - Assisted in developing and integrating software modules using industry-standard development practices.
 - Debugged applications, resolved software defects, and improved application reliability and performance.
 - Collaborated with senior developers during code reviews to enhance code quality and maintainability.
 - Gained practical experience in software development, testing, troubleshooting, and version control workflows.

PROJECTS

- **JobSphere – Job Portal Web Application | Laravel, MySQL, Tailwind CSS | [GitHub](#)**
 - Developed a full-stack job portal using **Laravel 12** following the **MVC** architecture with a responsive UI built using **Blade** and **Tailwind CSS**.
 - Implemented secure user authentication, authorization, role-based access control, and complete CRUD operations for job listings.
 - Built **Eloquent ORM** relationships, route model binding, middleware, server-side validation, pagination, and reusable Blade components.
 - Designed employer and job management modules with optimized **MySQL** queries and **RESTful** routing for efficient data handling.
 - Followed clean code practices using **Git**, **GitHub**, and modular architecture to build a scalable and maintainable application.
- **FitSet – Health & Wellness Web Application | PHP, MySQL, Bootstrap | [GitHub](#)**
 - Developed a responsive health and wellness platform using **PHP**, **MySQL**, and **Bootstrap**.
 - Designed scalable backend modules for user management and content delivery.
 - Optimized website performance and improved user experience through responsive design principles.
 - Developed a clean and intuitive user interface focused on accessibility and usability.
